General Information

The application is supported by all modern browsers. We highly recommend that you use a current version of Google Chrome, which supports Windows, Mac, and Linux platforms.

Prior to starting an application, please complete the following steps:

Step 1: Learn requirements for submitting an application

Before you begin an application, contact the Fulbright Program Office in the country from which you are applying. Deadline dates and application requirements for a Fulbright grant will vary from country to country. You must make sure you are eligible to apply. Additional information and a list of participating countries can be found here: Fulbright Visiting Scholar Program | Exchange Programs (state.gov).

Step 2: Record user name and password in a safe place

Your email address is your user name. When you create an account for this online application, record your password in a secure place. You can log in and out of the application as frequently as you like using your user name and password. If necessary, you can reset your password by clicking the "Forgot Your Password" link on the log-in page.

Step 3: Complete the application

You do not need to complete this application at one time. You can re-enter at any time to edit your application. However, once you SUBMIT your application, you CANNOT make changes to it.

To complete your application correctly, please answer all questions completely and carefully. Review these additional tips:

- Use upper and lower-case letters (e.g. John Smith). Avoid using all capital letters (e.g. JOHN SMITH). Do not use special characters, such as accent marks.
- You can copy and paste information into all text boxes.
- Limit your responses to the space provided in all text boxes.
- Prepare required documents and save them in PDF format. It is highly recommended that to preserve any formatting and special characters in your documents, you upload them in PDF format.
- Some questions are "required." They are marked with an asterisk (*). You will not be able to submit your application until all required items are complete.

Step 4: Submit the application

Once you have entered all required information, including recommenders, review your application for errors. If all information is correct, submit your application. Once you submit you CANNOT make changes to your application.

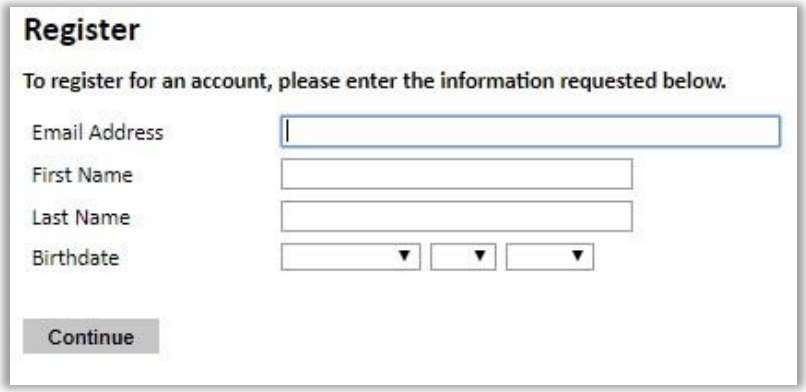
1. To start, click *Create an account*.

2. Enter your email address, first name, last name, and select your date of birth (Month-Date-Year) from the drop-down menus. **Your name must be entered exactly the way it appears (or will appear) on your passport.**



Note: Use an email address that you will be able to access for at least two years after submitting your application. This is the email address you will use to log in to your application account. We recommend you do NOT use a work email address if you will not have access to it during your grant in the U.S.

3. Click Continue. You will receive an email from apply@iie.org confirming that you have started the application. The email will include a temporary PIN. Follow the instructions in the email to activate your account using the temporary PIN.

4. You will be prompted to enter your pin and then create a password to complete login.

Plagiarism will be understood to include any of the following:

Presenting wording, statistics or concepts as your own which should be attributed to someone else or to publications (online or offline). This includes, but is not limited to:

- Copying the exact wording of a written source (with or without citation)
- Presenting material with alterations in wording (with or without citation)
- Paraphrasing the content of a source without citation

It is expected that your responses to all questions in the following application will be your own work and writing, with clear citation of secondary sources if describing academic work and the writing of others (including one's own previously published work). Any sources used in the construction of your responses must be clearly cited.

Some US universities and colleges have developed and published policies on the use of generative artificial intelligence (GenAI) on applications for admission or affiliation with their institution. Some institutions may scan applications for the use of language produced by GenAI. While individual institutional policies range widely and policy responses from US universities will continue to evolve, copying language/content produced by GenAI directly into your application may negatively impact admission or affiliation decisions.
